

Hail The Great Satan!! [4th of July]

-High Priestess Maxine Dietrch

Today is the 4th of July, the official birthday of the USA. The USA is also known as "The Great Satan."

In spite of Jewish filth and other rot trying to destroy this wonderful country, we still have freedoms here that many other countries do not. Thanks to our Satanic Founding Fathers, we have this most wonderful country.

Idiots and those who are too weak to live in reality, those who lack the knowledge and the education and other ignorant people, are unaware.

Life in many other countries is abominable. One woman who was taken to the USSR as a child, was trapped over there for some 50 years and risking her life and placing herself in extreme danger, finally made it back here. She knelt down and actually kissed the ground when she exited the ship.

We have libraries, open schools, modern conveniences, open bookstores, fun, recreation, and so many things to be grateful for here in the USA. You can get just about anything here. Many necessities, modern conveniences, recreation and fun are often either banned, prohibited or just unavailable in many other countries.

In the world of Islam, life is brutal. The rotten and most negative attitudes, along with slavishly worshipping and prostration before total rot has taken its toll. Endless violence, bombs, sick and debased hatred of women, "infidels" desertification and bareness of the land, total indifference towards domestic animals and overall misery. Prostrating before and worshipping pure evil attracts ugliness, misfortune and violence, as what the mind and soul dwell upon, even more so with the masses, they attract. I recently saw a photo of an older Islamic woman. Her eyes looked so sad from a lifetime of brutal slave labor and misery.

Even worse is how the Muslims, as they slavishly worship that total rot they are deluded into believing is "God" work to spread the worst imaginable misery to Europe, the USA and other countries that have not been afflicted by that most vile plague that creates violent murderers who are depraved, capable of anything, spiritually debased and criminally insane.

I just finished reading a book how young girls are kidnapped from the USA and Europe and sold as brides to Islamic men and boys in places such as Yemen. Life in these places is horrific. The girls wind up being slaves who are brutality worked under the most heinous conditions, and raped. All of their rights and freedoms are gone. Pedophilia is rampant in Islam as it is with all the Jewish invented programs that have the audacity to call themselves "religions." Another fact is no one is just free to leave these places.

Most of these countries are stuck in the Dark Ages. The populace is forced to attend those rotten mosques and those caught eating during the fasting time for Islam, Ramadan, are severely punished.

Freedom must be fought for. Here in the USA, we still have many freedoms, though the Jewish filth that has infested and taken control of our government, our press, corrupted our legal system and our educational systems, working to promote their injustices, and bent on destroying this wonderful country, using racial tensions, lies and their malignant "religious" programs in attempts to make us fall to their communism.

I'm proud and very grateful to be an American. Hail the Great Satan!

We will have the last 2 RTRs later this month. Repeatedly doing these rituals is destroying the enemy. The Christian churches are crumbling, though there are still pockets of stupid, deluded individuals, but these will also cease to exist in time.

After these next RTRs, we will then be working on the worst plague to ever afflict humanity, outside of the Jewish root... Islam.
